August Dog Show Special: Shipping free via Canada post, valid for all orders received prior to Aug. 31, 2012.

Tug/Jackpot Toy

Testers love our "Bingo", a tough sheepskin tug/jackpot toy. When presented, most dogs spontaneously open their mouths and grab it. Velcro closure allows you to insert food if your dog is more food motivated, and build drive for tugging. Fits small to very large dog snouts. Toss it to reward your dog for working at a distance. Recall your dog to open up the toy and offer treats. If your dog wanders away, either put a leash on your dog or put a leash on your toy.

Made of veg-tan sheepskin, similar to use in hospitals for bed padding to prevent bedsores, padding under horses' saddles and Ugg boots. Only 1 color: natural orange. Handle and dangling end are made of polyester webbing (used in transport trucks to secure loads). Washing not recommended. Always drip dry. Shown with 7 inch handle, 3 inch tail. Ask us if you'd prefer

longer for dogs that are reluctant to tug close in or to protect your fingers. Assorted bold colours e.g. yellow, blue, red, green, and purple.

Lifetime guarantee with normal use (voided by chew marks or cutting). Just send it back; we'll fix or replace it. [Click here](#) for detailed product instructions.

\$44.99

Placing an Order

The best way to reach us is by email. To place an order, email Carla at webmaster@HuntersHeart.com. Preferred payment by Interac money transfer (until we get our e-store up and running.)

For custom products, email (or mail) us your photos. Don't forget: high resolution photos (suitable for blowing up in enlargements) are necessary for good products!

Custom work must be prepaid and is a final sale. We will email you a digital proof of the final design for your approval and color checking. (Ask us if you prefer to see a proof on actual item). Once you approve it, the order cannot be changed. It usually takes approx. 4-6 weeks to product completion. Note that **custom leashes** are printed in USA and take approx. 12 weeks. Service times are not guaranteed during peak periods. Defective items: if product is damaged in shipping, contact us within 30 days to send it back to us for exchange, refund or credit.

Custom Sublimation Printing

Put your dog's photo on specially prepared fabrics and surfaces. For most in stock products printed in Calgary, it takes approx. 4-6 weeks after high quality photo file received. NOTE: custom leashes are printed in USA and may take up to 12 weeks.

Don't forget: high resolution photos (suitable for blowing up in enlargements) are necessary for good product. Custom work must be prepaid and is a final sale. We will email you a digital proof of the final design for your approval and color checking. (Ask us if you prefer to see a proof on actual item). Defective items: if product is damaged in shipping, contact us to send it back to us for exchange. Preferred payment by Interac money transfer (until we get our e-store up and running.)

Leashes, Tattooed Polyester (bottom in blue and yellow diamonds)

Soft on the hands and dog's neck, strong, water resistant. Starts as white polyester webbing, commonly used by transport trucks to tie down their load. Sublimation printing permanently tattoos on vibrant colors that will not bleed. In order to show off your photo, we recommend 1 inch width. You choose the photo/text, color, pattern, length. Either snap bolt or slip lead aka presentation lead with built on collar (for when your dog has no collar or you want to get the lead off quickly e.g. agility or field competition). 6 foot is the most popular length. Available from tabs to 2 feet leashes up to 60 feet longlines.

Visit <http://www.facebook.com/HuntersHeart> for more leash designs.

BINGO INTERACTIVE REWARD INSTRUCTIONS

About Bingo

Handmade in Canada (using local suppliers whenever possible). Tested by pro facilities, in competition and in homes. Try it and see what a difference top quality makes to tough toys for dogsports.

The furry part of the bingo is sheepskin, which is also used underneath horses' saddles as a durable cushion. A similar fabric is used in medical sheepskins to prevent bedsores, and also comfy Ugg boots. Vegtan sheepskin is produced using gentle plant dyes rather than harsh

irritating chemicals like formaldehyde (which is known to cause cancer). The handles are heavy duty polypropylene webbing, used in outdoor gear like backpacks. It withstands 702 lbs break strength, is UV stable, and mildew resistant. For different colors, nylon webbing may be substituted, or polyester that is also used for truck tie downs. Toys are double sewn using strong V92 bonded polyester thread that is used for awnings and sails; it's water and UV resistant too.

Warning

Play safely! THIS IS NOT A CHEW TOY. It's an interactive toy you can use to increase the fun playing WITH your dog. Never leave it with your dog e.g. your dog's crate. Always supervise the dog with the bingo, and put it away if they try to eat it. Note if you don't supervise responsibly, the dog may consume the toy, resulting in serious injury or even death.

Keeping this toy away from the dog except when you're playing training makes the dog want it more. It's a toy you can enjoy together.

How to Use Bingo

Of all the toys we tested, bingo is the dogs' favorite. Most dogs grab the bingo in their mouths without any encouragement. By using the Bingo, you can use the dog's natural prey drive to build fun, enthusiasm and drive for training, dogsports and playing.

For tugging, hold on to the handle. Drag it on the floor to get your dog interested. Allow the dog to pull it back a few inches, resist then allow some slack again.

If your dog is more food motivated, get them interested by opening the Velcro and putting some steak inside. Try sealing the Velcro loosely so there are some openings and some food will fall out when the dog interacts with the toy.

For avid retrievers, use it with or without food. Send the dog to their bingo with your fetch command. Praise them for fetching it. When bring it back to you, quickly open and give the food. If your dog picks up their bingo and runs away, either put your dog on leash, or put your bingo on leash.

For training dogsports, teach your dog the cue "bingo" means a reward is coming. To reward working at a distance, you throw the bingo and then play together or give the food inside.

To accustom your dog to the Bingo, put some food in. Drop it at your feet. When the dog touches it, quickly open up the Velcro and give the food. Repeat several times. Then load it with food, say "bingo", throw it 1 foot away, when the dog touches it, rush to open it and give the food. Gradually increase the throwing distance. At first, you can throw the bingo on course during practice as a jackpot reward. Eventually your dog will work happily inside the competition ring, awaiting their bingo reward. Say bingo when you're done, and go together to get their bingo nearby at ringside.

Care

Genuine sheepskin tends to be self-cleaning due to its natural lanolin. In most cases, all you need is to air it out in a safe place. To avoid damaging the sheepskin, brush stains off with a damp cloth. Do not immerse in water.

To bring back its fluffy volume, give it a vigorous shake or gently brush using a soft brush for dogs.

You may wash in sheepskin shampoo or hand wash using dishwashing liquid. (This is how vets recommend cleaning waterfowl that are trapped in oil spills. It's nontoxic if a small amount is consumed.) Dry flat or hang to dry. Do not use bleach or iron. Don't dry in dryer, sunlight or direct heat. Note that sheepskin yellows with age and this is unavoidable.
